 github.com/jojololami?tab=repositories

Summary

Frontend Engineer with 2+ years hands-on experience building responsive and scalable web apps with HTML, CSS, JavaScript, React, and Next.js. Skilled in debugging, code optimization, and collaborative development. Passionate about writing clean, maintainable code and adapting to new technologies.

EDUCATION

P.G. Diploma, Computer Science and Cybersecurity, <i>Obafemi Awolowo University, Nigeria</i>	11/2025 – Present Nigeria
Frontend Development, <i>Tech4Dev, Women Techsters Fellowship</i>	09/2023 – 05/2024
B.Sc. Chemical Engineering, <i>Obafemi Awolowo University, Nigeria</i> • Graduated with Second Class Upper Division.	09/2014 – 12/2019 Nigeria

TECHNICAL SKILLS

Development Stack	Core Competencies
• HTML, HTML5 • CSS, Tailwind CSS • JavaScript, TypeScript • React, Next.js • GitHub, Git	• Debugging • Performance optimization • Responsive design • API Integration • Code review • Figma

PROJECTS & EXPERIENCE

Frontend Developer - Personal Project, Frontend Intern Assessment 	04/2026 – 05/2026
• Built a pixel-perfect, fully responsive implementation of a Figma design using Next.js (App Router) and Tailwind CSS. • Structured the UI using reusable, modular components following production-level frontend architecture. • Ensured responsiveness across mobile (425px), tablet (768px), and desktop (1280px+) using Tailwind responsive utilities. • Applied semantic HTML and accessibility best practices to improve usability and keyboard navigation.	
Frontend Developer - Axia Africa 	09/2025 – 12/2025
• Built a comprehensive learning platform using Tailwind CSS and React. • Designed and developed a responsive UI with a landing page, dashboard, courses page, assignment tracking, and profile management. • Implemented authentication systems using DummyJSON and implemented multiple REST APIs. • Utilized Fetch API for asynchronous data handling and state management. • Implemented error handling and edge case testing for API integration.	

- Built reusable React components with a consistent design system and auto-layout principle.

Frontend Developer - Personal Project, Modern Bank App

04/2025 – 05/2025

- Built a responsive, modern, mobile-first banking application using React and Tailwind CSS.
- Developed reusable React components with prop-based composition and lifecycle optimization.
- Integrated asset management and dynamic component rendering with map functions for scalable UI sections.
- Debugged and optimized components to improve performance and reliability.

Junior Frontend Developer— Tech4Dev

09/2023 – 05/2024

- Collaborated with product designers to develop and implement a website called Healthy Diet for All using HTML, CSS, and React.JS.
- Worked closely with the backend developer to implement frontend and backend functionalities to aid real-time data processing and analysis.
- Initiated weekly code reviews, reducing bug rates by 20% and fostering a culture of collaboration and continuous improvement.
- Validated code reliability through systematic testing and debugging.
- Created technical documentation for codebase and development processes
